Swetha K

MENTOR NAME   : Fathimaa Chandhini

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridgesthe gap between

business problems and technology solutions. Its goals are to:

• Find the best tech solution to solve existing business problems.

• Describe the structure, characteristics, behavior, and other aspects of thesoftware to

project stakeholders.

• Define features, development phases, and solution requirements.

• Provide specifications according to which the solution is defined, managed,

and delivered. **Solution**

Architecture:
